Foreword

Town and School District Profiles, 1988-89, is the 11th annual edition of this publication. It contains a concise presentation of statistics about Connecticut's educational system drawn from major state and federal sources, clearly arranged for each town and school district. A companion publication, *Meeting the Challenge, 1988/89,* reports on the overall condition of education in Connecticut and on progress on related policy initiatives.

At this time there is significant public discussion about indicators of the condition and quality of education. The data presented here include input measures, such as staffing, spending and community characteristics; and outcome measures, such as graduate data and mastery test scores. Judicious use of these measures can provide meaningful insights into educational offerings statewide.

In recent years demand for this publication has exceeded available supplies. This indicates a broad interest in data about our school systems. The State Department of Education is committed to supplying accurate information about the state's public schools to all interested parties. We hope that quality information will help all of us find new ways to improve the education of all Connecticut's children.

Total Expenditures	All expenditures for programs and services for public elementary and secondary school students, except expenditures for adult education programs, community services, and services for nonpublic school students. Total expenditures include expenditures for resident students educated outside the district as well as expenditures for students, resident and nonresident, who attend district schools. The per pupil amount is based on the total number of students attending district schools plus the number of resident students educated outside the district.
Net Current Expenditures	Total expenditures, as defined above, less the sum of expenditures for pupil transportation and capital equipment and tuition receipts for nonresident students. This amount represents current operating expenditures for all resident pupils. The per pupil amount is based on the average daily membership of the district.

Special Education Instruction	The sum of district expenditures for special education instructional programs
Compensatory Education Instruction	The sum of district expenditures for supplemental compensatory education programs

Fiscal and Other Support Services	The sum of district expenditures for fiscal, business and central office services. The per pupil amount is based on the total number of students in the district.
Transportation	The sum of district expenditures for all pupil and other transportation. The per pupil amount is based on the number of students reported as receiving transportation to public and nonpublic schools at the expense of the local public school district.
Food Services and Student Activities	The sum of district expenditures for food services and student activities. This sum represents net food services expenditures plus net student activities expenditures (i.e., total expenditures less sales revenues). Where sales revenues meet or exceed expenditures, net food services expenditures may be reported as zero.
